Hash Code 2018: Problem statement release

От: Hash Code 2018 <hashcode@google.com>

Кому: undisclosed-recipients::

Hello Hash Code participants,

The problem statement is now available to download from the [Judge System](#).

You can submit solutions until 22:30 CET. Every valid submission should include both the solution (text file following the format specified in the problem statement) and a ZIP file (16 MB max) containing the source code you used to produce the solution.

We encourage you to submit solutions regularly. This allows you to be sure they are valid, and to update the scoreboard. Only your best submission for each data set will be considered for the final ranking.

Visit the live scoreboard in the Judge System to see how other teams are doing. It will freeze at 21:30 CET so that there's a bit of suspense during the last stretch :)

We'll join you back on the YouTube livestream shortly after the Judge System closes to share highlights from the round and announce top teams. You can [access the closing livestream from our site](#).

Good luck, everyone!

Cheers,

Nirali from the Hash Code team

2018 Google Ireland Ltd, Gordon House, Barrow Street, Dublin 4, Ireland.
